

Faculty of Medicine

KINE1033 Seminar of motor re-education and physiotherapy

[0h+7.5h exercises] 3 credits

This course is not taught in 2005-2006

Language: French

Level: First cycle

Aims

Know how to realize a synthesis on a subject dealing with the rehabilitation or with patients' rehabilitation (neurological rehabilitation, orthopaedic, etc.) and this from an article resumed in the international literature.

Main themes

The students present by groups of more or less three students a subject determined every year by the teachers. They have to look for articles dealing with this subject in the international reviews. The students explain the article, criticize them and a discussion about the subject is then begun. Given the variety of tackled issues, this course will be give with other teachers. The usual subjects are among others:

- orthopaedic and traumatic rehabilitation including the spinal column;
- cardio-respiratory rehabilitation and vascular;
- neurological rehabilitation;
- evaluation of the disabled person and the old person, including the rehabilitation of the walking.

The contents should take into account the biomechanics and the physiotherapy, physiological techniques.
