Faculty of Sciences

MATH2490 ??? ordinary or partial differential equations

[45h] 4.5 credits

This course is taught in the 1st semester

Teacher(s): Jean Mawhin
Language: French
Level: Second cycle

Aims

The study of selected problems linked to ordinary or partial differential equations.

Main themes

The covered material varies periodically.

Other information (prerequisite, evaluation (assessment methods), course materials recommended readings, ...)

Prerequisites: course of analyse (candidature level). Basics in differential equations.
Support: reference books differing with the course content.

Other credits in programs

| **MATH22/G** | Deuxième licence en sciences mathématiques | (4.5 credits) |
