

## Faculty of Medicine

### MEGE2101 General practice seminars

[22h]

**Teacher(s):** Philippe Heureux, Cassian Minguet, Dominique Pestiaux, Daniel Vanthuyne (coord.)  
**Language:** French  
**Level:** Second cycle

#### Aims

At the end of the course, students should- be able to adequately manage common problems in general practice- have progressively developed the ability to represent problems through analysis of common situations in general practice.

#### Main themes

Themes from the following: headaches, contraception, palliative home care, balance problems, back pain, depression, insomnia.

Methods: Groups are made up of 15 to 20 students. Problem-based learning and case-studies are moderated by a general practitioner. Students participate actively by bringing cases from their clerkship experience, by bringing evidence-based material they have read, by regularly assessing the objectives, by choosing 3 themes.

#### Other information (prerequisite, evaluation (assessment methods), course materials recommended readings, ...)

Assessment: OSCE  
 Secretary: 02/764.53.44

#### Programmes in which this activity is taught
