

**Faculty of Medicine****MEGE3011 Advanced aspects of primary care**

[20h]

**Teacher(s):** Cécile Bolly, Jean Laperche, Dominique Pestiaux (coord.), Michel Vanhalewyn  
**Language:** French  
**Level:** Third cycle

**Aims**

The aim of this course is to introduce the students in primary care to the approach of specific problems frequent in primary care and in need of a specific approach.

**Main themes**

The issues discussed in this course included the following :

- Palliative care
- Treatment of addictive problems to tobacco and cannabis.
- The illicit addictions in a broad sense including for exemple heroin.

Two magistral sessions are organized for palliative care and two workshops for the three themes to study.

**Other information (prerequisite, evaluation (assessment methods), course materials recommended readings, ...)**

A practical approach of problems is favored. The evaluation is organized using OSCE (Objective Structured Clinical Examination).

**Programmes in which this activity is taught****MEGE3DS****Other credits in programs**

**MED24/MG** Quatrième année du programme conduisant au grade de docteur en médecine (Médecine générale)
