

PHYS2322 Supplementary course in teaching methods in physics

[22.5h] 2 credits

Teacher(s): Jacques Lega, Jim Plumat
Language: French
Level: Second cycle

Aims

This course has the same objectives as that in teaching methods in physics. Essentially, it aims to provide training in greater depth for those students for whom physics is the basic discipline.

Main themes

The course is devoted to an in-depth analysis of the content of the physics syllabi and to complementary teaching activities in the laboratory. The methodology is the same as that used in the course on teaching methods in physics.

Programmes in which this activity is taught

SC2A Agrégation de l'enseignement secondaire supérieur (sciences exactes)

Other credits in programs

SC2A/P Agrégation de l'enseignement secondaire supérieur (Physique) Mandatory
 (Physique)
