PSP1273

Fieldwork

[0h+30h exercises] 2 credits

Teacher(s): Michel Hupet
Language: French
Level: First cycle

Aims

- to familiarise the students with the research, namely the research realised inside the Faculty
- to arouse the synthetic mind about some research points (question presentations, theoretical reference framework, mastering of the methodologies, results acquisition and analysis, checking according to the questions presented; this checking stage is essential for the students learning and formation).
- The aims of these fieldworks are different of those related to lectures, those being rather intended to illustrate various parts of the subject matters presented.

Main themes

Scientific and academic members of the Faculty propose some research subjects, the number of students expected for each subject, the schedule and how the students participation is accounted in credits.
 Each student has to choose the subjects in order to come up to 30 credits.
 Synthesis sessions are planned for each subject in order to reach the aims presented.
