

## Faculty of Psychology and Education Sciences

PSY2250

### Seminar on team work and interpersonal communication

[30h] 3 credits

This course is taught in the 1st semester

**Teacher(s):** Michel Bonami  
**Language:** French  
**Level:** Second cycle

#### Aims

- to give the students the opportunity to concretely experiment the functioning of a work team (to perceive and analyse the various processes and components of the group dynamics)
- to observe his/her own behaviour inside this group and to develop efficient behaviours of team work; to understand more thoroughly and to be able to apply in real situations the conceptual frames presented in the prerequisite courses; to concretely experiment the modes of intervention and of training used in the companies and organisations.

#### Main themes

- group phenomena: socio-affective and socio-operatory dynamics, leadership and influence, conflicts and group structuration, treatment of the information and decision making,...
- interpersonal communication, personal attitudes in a group and their effects on the team work, risks and uncertainties inside the groups, ...
- organisation of the team work, team building, meeting leading,...

#### Content and teaching methods

- to give the students the opportunity to concretely experiment the functioning of a work team (to perceive and analyse the various processes and components of the group dynamics)
- to observe his/her own behaviour inside this group and to develop efficient behaviours of team work; to understand more thoroughly and to be able to apply in real situations the conceptual frames presented in the prerequisite courses; to concretely experiment the modes of intervention and of training used in the companies and organisations.
