Study objectives

Study objectives in terms of acquisition of skills :

- The bachelor's programme of Human and Social Sciences aims to :
- provide the students with a pluri-disciplinary grounding in Human Sciences
- develop the student's capacities of critical analysis, reasoning and personal judgement
- initiate the student in autonomous and individual study and lay the foundation stones for approaching scientific research
- initiating the student in written and oral communication skills.

On a general level :

- one year is dedicated to the acquisition of basic knowledge in the main disciplines of Human and Social Sciences and to a seminar on university study approaches and methods
- one year is dedicated to the acquisition of primordial methodological tools and the conceptual foundations of Human and Social Sciences
- and one year is dedicated to the pursuit of the acquisition of methodological tools and the approach of certain subjects from Work Science and Human Resource Management.

General presentation of the programme

In the first year, the bachelor's programme comprises a pool of subjects common to the Faculty and to specific courses in Human and Social Sciences. Thanks to this pool of common subjects, after the January session, the student may re-orient his studies if so desired, towards another programme in the Faculty.

The three year programme corresponds to 180 credits and consists of a major, an ensemble of courses, seminars and exercise, totalling 150 credits.

To widen his intellectual and professional horizons, the student may likewise choose to go more deeply into his major, via an ensemble of options (30 credits), or opt for a period of work experience (10 credits) and some options (20 credits). These choices must be approved by the Programme Supervisor.

The choice of the minor also facilitates re-orientation when it comes to choosing a master's programme. The role of the Programme Supervisor and Study Advisor is important with respect to subject choice (information, advice, etc.).

Minors or other options available (30 credits)

The student will complete his programme by choosing :

corresponding to 15 credits in the 2nd year and 15 credits in the 3rd

- a minor (30 credits) to be selected from the ensemble of minors offered at UCL
- or
 - a period of work experience (max. 10 credits) plus some options (for at least 20 credits).

The choice of the minor or options must be approved by the Programme Supervisor.

Evaluation

Ongoing evaluation : exercices and personal pieces of work. Written and oral exams

Admission to the programme

The programme is accessible to those in possession of a secondary school-leaving certificate (c.f. the "Access to Studies" part of the study programme for a precise description of the admission conditions and their particular cases). The conditions and regular admission requirements are specified on the web page "Access to Studies":

http://www.ucl.ac.be/etudes/libres/en/acces.html

Positioning of the programme

Positioning of the programme within the University cursus

The bachelor's degree entitles direct access to the master's of Work Science, the master's of Human Resource Management and the master's of Population Science and Development (at UCL).

Other studies available upon completion of the programme

Subject to possible prerequisites, the bachelor's degree in Human and Social Sciences entitles access to the master's of Human Sciences : Sociology, Anthropology, Political Sciences.

Minor or other option (30 credits to be spread over the BAC 2 and BAC 3)			

The student will choose

• a minor to be selected from the ensemble of the minors offered by UCL

or

• options offered on other bachelor programmes

or

• a work experience period (10 credits) and options (20 credits). The selection of the work experience period is upto the student (with the support of the UCL structures). It will take place in an institution chosen by the student (association, ONG, trade union, private firm, etc.) in relation to his domain of studies : human resources, demography, development, etc. This will be conducted under the supervision of a work experience supervisor, from the host institution, as well as of an instructor from the student's programme. The apprenticeship will last approximately 120 hours in the institution. It will conclude with the drafting of a report and be subject to evaluation. This may take place during the holiday period between the BAC2 and BAC3, or during the year of the BAC3, or during the holiday period of the BAC3.

These choices must be approved by the programme manager.
