

ANGL1851 Reading and Listening comprehension

[60h] 4.5 credits

Teacher(s): Susan Jackman, Henri November, Jean-Paul Nyssen, Albert Verhaegen
Language: French
Level: First cycle

Aims

At the end of this module, the student will have developed mainly receptive (listening and reading) abilities in English. The level reached will be sufficient to understand a scientific text in English on the subject of physical education or physiotherapy and rehabilitation as well as to understand a simple oral communication in these domains.

Main themes

To fulfil these objectives, teaching activity will focus on the following topics

- reading strategies in the foreign language
- decoding strategies for listening comprehension in the foreign language
- English grammatical structures
- development of English vocabulary pertaining to the science of motricity
