

Faculty of Medicine

KINE1027 Introduction to pathology.

[30h+0h exercises] 3 credits

Teacher(s): Etienne Delgrange, DIDIER SCHOEVAERDTS, Nicolas Zdanowicz (coord.)
Language: French
Level: First cycle

Aims

Most of the pathologies for which a treatment in physiotherapy exists will be studied within the framework of the courses of " pathology and physiotherapy of musculo-scrawny, cardio-respiratory and neurological systems ". The present course aims to give general notions of pathology in the other domains of the medicine (oncologie, gynaecology, digestive, etc.). psychopathologies will be particularly developed within the framework of this class(course).

Main themes

Course is divided into two parts:

- Pathologies in inner medicine (oncologie, gynaecology, digestive, etc.) - 15 hours - 1.5 ECTS,
- psychopathologies - 15 hours - 1.5 ECTS.

Even though most of these pathologies can not be directly looked by the physiotherapy, the consequences which these pathologies can pull(entail) on the action of the physiotherapist will be the object of a quite particular attention

Content and teaching methods

Most of the pathologies for which a treatment in physiotherapy exists will be studied within the framework of the courses of " pathology and physiotherapy of musculo-scrawny, cardio-respiratory and neurological systems ". The present course aims to give general notions of pathology in the other domains of the medicine (oncologie, gynaecology, digestive, etc.).

Other information (prerequisite, evaluation (assessment methods), course materials recommended readings, ...)

Pre-necessary: Cellular physiology, general psychology, psychology and handicap Evaluation: Examination written or oral
 Support: Syllabus and/or book Framing: Holder

Other credits in programs
