### Study objectives

This master's programme addresses adult university graduates who have a certain socio-professional experience in the field of training and education. The objective is to provide the students with a multi-disciplinary training leading to a master's specialisation (120 credits), aiming at the development of specific analytical skills and action in these fields.

### Admission conditions

The master of Education Sciences is accessible to candidates who fulfil the following conditions :

- they are university graduates (or equivalent) possessing the post-graduate certificate in education - PGCE - (or equivalent). In the case where the student does not have the PGCE (AESS in Belgium), courses in psychopedagogy are added to the programme (14 credits) ;
- they have sufficient professional experience (min. 5 years) in the domain of training or education. In the case where the student does not have the required experience, apprenticeship periods are included in the programme (20 credits).

### General structure of the programme

Specifically designed for adults who are professionally active, this training course is organised accordingly : staggered timetable; special pedagogical activities (work in sub-groups) oscillating between theory and practice; presence of training advisors.

### Programme content

The programme comprises 120 credits spread over two academic years : 90 credits for the core syllabus and 30 credits for the specialisation.

Dispensations may be granted for candidates who manage to have their equivalences validated, for a maximum of 60 credits.
