

FSA3010 Principes de communication scientifique

[15h+15h exercices] 3 credits

This course is taught in the 2nd semester

Teacher(s): Patrick Bertrand, Patrick Bertrand (coord.), Patrick Bertrand (supplée Axel Van Lamsweerde), David Johnson, Axel Van Lamsweerde, Michel Verleysen

Language: French

Level: Third cycle

Aims

This third cycle formation aims at helping young researchers to improve the quality of their scientific documents and communications and so, to increase the impact and the spreading of their research results.

Main themes

This formation is scheduled on seven half-day modules, covering the following topics:

- Organisation and life cycle of a scientific paper
- Principles of technical writing
- Technical English
- Workshop on technical writing
- Principles of oral communication in English
- Workshop on oral communication in English

The workshops require an active participation and deal with " the materials " brought by the participants.

These materials can either be scientific articles (accepted for publication, refused, submitted or in preparation) or activity report, PhD research proposal #
