

Faculty of Economic, Social and Political Sciences

IDAP2105 Chair of political and administrative reform

[30h] 3 credits

Teacher(s): Elisabeth Séror
Language: French
Level: Second cycle

Aims

- To introduce students to the issue, and to the management of change in political and administrative organisations.
- People from outside the UCL, from the Belgian and foreign university community and public sector, will be invited to present, discuss or analyse (draft) reforms in the politico-administrative field.

Main themes

The course will depend on the people who are invited to take part. Priority will be given to the comparative dimension, whether in a European context or outside.

The choice of these people will be determined each year by the POLS Department at the suggestion of the SPRI Unit.
