

## NEER2710 Listening comprehension and oral expression: specialised Dutch oral exercises

[60h] 6 credits

This course is taught in the 1st and 2nd semester

Language: French

Level: Second cycle

### Aims

At the end of the course, the student should at least have reached the C1 level in listening skills and the B2+ level in oral skills in Dutch in specialised contexts (business).

With the aim of facilitating the listening comprehension and spontaneous oral expression about different topics from the business world, the student should be able to master the language functions, the grammatical structures, the genre conventions, the general and business vocabulary.

### Main themes

Various activities related to the business world in the language laboratory to gradually improve the students' listening comprehension skills and the students' oral production skills (pronunciation, accentuation and intonation).

On the one side, the student is encouraged to gradually improve his/her listening comprehension skills with videos and audio-tapes (monologues, dialogues, formal and familiar registers, different accents, specialised contexts such as business, economics, politics#). On the other side, the course aims to improve oral production skills (pronunciation, accentuation, intonation, specialised expressions#) with various oral exercises partly taking place in a language laboratory, with lexical extension and with the revision of the main grammar structures. Detailed correction by the teacher.
