

## PHYS2997 Thesis tutorial

[15h] 3 credits

This course is taught in the 1st semester

**Teacher(s):** Jean-Pierre Antoine  
**Language:** English  
**Level:** Second cycle

### Aims

To contribute to the training of the student in scientific communication, and in particular to the presentation to a talk in English.

### Main themes

1. Training in scientific presentation in English (with the help of ILV)
2. Public presentation in English of the state of advancement of the master thesis.

### Other information (prerequisite, evaluation (assessment methods), course materials recommended readings, ...)

Evaluation: based on the quality of public presentation, not on the scientific value of the content. English evaluation is about correct pronunciation of the most frequent words, fluency and care to apply techniques taught during sessions.
