Aims

- to supply the students an operational information on the nine orientations in licence ?. The aim is to present them as much as possible the contents and the practical facts of each orientation and the various options, so as they could make an enlightened and active choice.
- To present for each field, the possibilities of practical training
- To prepare a training choice, at least for one of the two trainings

Main themes

In "deuxième candidature" : integration of the theoretical and practical dimensions of the training in the various orientations. Information on the options recommended.

In "première licence" : Discussion from the analysis of documents, from the meeting with persons working on the field, about the behaviours to develop during the trainings (concerning the knowledge, the know-how-to-do, the know-how-to-be).

Contacts with at least one tutor. Analysis of the training project.

Content and teaching methods

- To allow the students to make an enlightened and active choice in the "licences", by giving in "deuxième candi" an information on the various orientations in "licences", included the options courses; by presenting the various possibilities of practical trainings in each field; by preparing a choice for at least one training.

Other information (prerequisite, evaluation (assessment methods), course materials recommended readings, ...)

The information about the "licence" orientations begins in "deuxième candi".
