

Faculty of Psychology and Education Sciences

PSY2341 Advanced questions in human development : childhood

[30h] 3 credits

This course is not taught in 2006-2007

This course is taught in the 1st semester

Teacher(s): Isabelle Roskam
Language: French
Level: Second cycle

Aims

From the theories in social development, the course presents a reading grid of the educational reality and draws educational implications. It also emphasises the clinical perspectives.

Main themes

The central theme of the course is the study of the social development.

It is considered through the cognitivo-developmental theories, the social learning theories, the attachment theory and the works of Vigotsky. The following themes will be particularly considered: 1. social relations during the first childhood, 2. the play, 3. social decentring, 4. moral development, 5. learning of male and female roles, 6. social cognition from the theory of the mind.
