PSY2720 Szondi test of and theory of drives

[30h] 3 credits

This course is taught in the 1st semester

Teacher(s): Philippe Lekeuche
Language: French
Level: Second cycle

Aims

- to introduce to the theory of drives of L. Szondi and to the correlated projective test of personality: the experimental diagnosis of drives.

Main themes

- detailed presentation of the theory of "Destiny analysis" of Szondi.
- study of the dialectic structure of his impulse scheme
- presentation of the test and of its mode of execution
- degeneration of the impulse scheme in the light of the triadic reading and of the impulse run (circuit pulsionnel) of J. Schotte

Content and teaching methods

- to introduce to the theory of drives of L. Szondi and to the correlated projective test of personality: the experimental diagnosis of drives. The theory presented analyses the four major themes of psychopathology in the frame of a structural nosography: psychosis, neurosis, perversion, psychopathy and mood disorders.
