Masters in Economics/in Econometrics

(research focus)

The research masters provide advanced training in microeconomics, macroeconomics and econometrics, together with their applications to various specific fields of studies.

Detailled Program: www.uclouvain.be/en-prog-econ2m **and** www.uclouvain.be/en-prog-etri2m			**Campus:** Louvain-la-Neuve /Namur
Day schedule	**Duration:** 2 years	**Language:** English	**Internship:** NO

The research masters provide advanced training in microeconomics, macroeconomics and econometrics, together with their applications to various specific fields of studies. They provide the best preparation to the PhD program.
The programs are highly selective and competitive and meant only for ambitious, talented students.

RESEARCH MASTER IN ECONOMICS IN 1- OR 2 YEARS

For holders of a 3-year degree (180-credits) in economics.
A direct access to the second year of this programme is possible for students who have already accumulated 240 credits or hold a 4-year degree in economics.
The first year the student acquires a sound background in economics, quantitative methods, and an introduction to some fields.
The second year consists of research oriented core courses in microeconomics, macroeconomics, quantitative methods, and an introduction to specific fields.

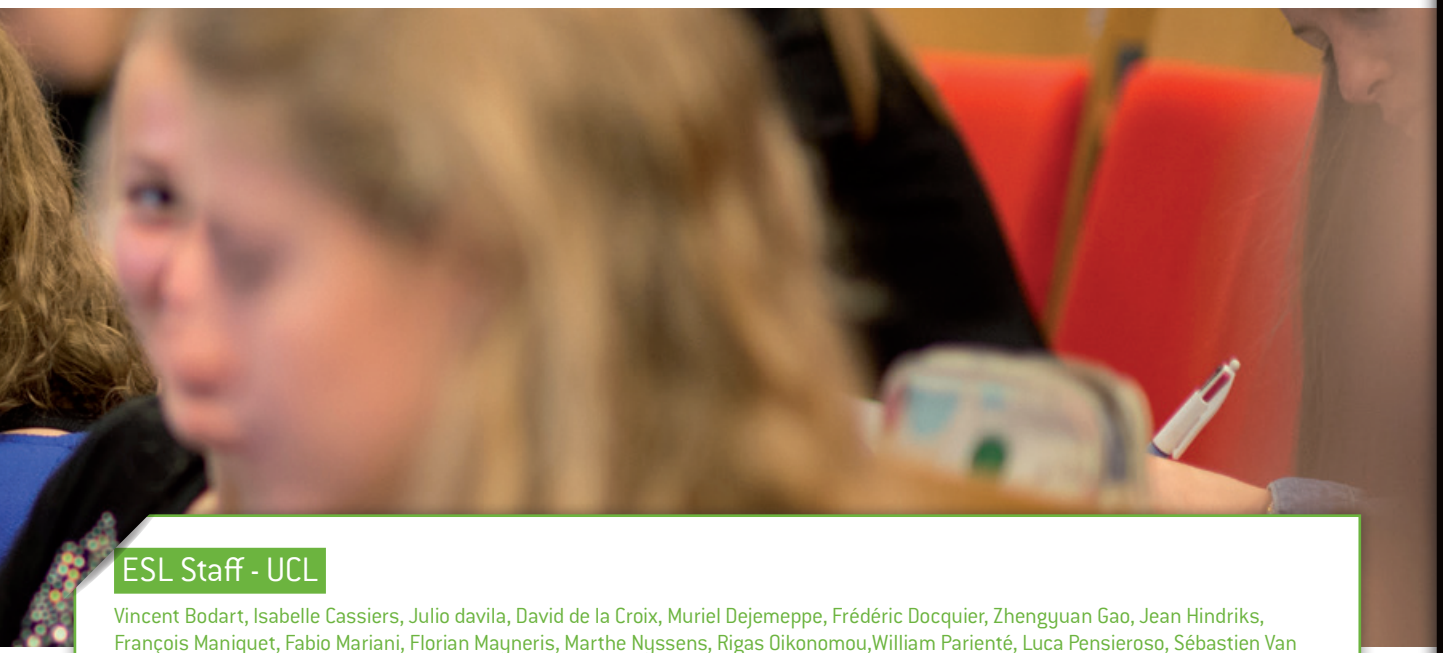

www.uclouvain.be/en-504777

PROGRAM	ECTS	
INTRODUCTORY COURSES	35	• Economics (4 courses) • Quantitative methods (2 courses) • 1 reflexive course
CORE COURSES	30	• Advanced Economics (4 courses) • Quantitative Methods (1 course) • 1 research seminar
ELECTIVE COURSES	35	• 2 options (6 courses) + 1 elective course • Recommended option 1: Advanced Economic Analysis (fields) • Recommended option 2: Quantitative methods • Recommended option 3:Introduction to 1 specialization (among 8)
THESIS	20

RESEARCH MASTER IN ECONOMETRICS IN 2 YEARS

For holders of a 3-year degree (180-credits) in economics with a good background in quantitative methods.
Core courses are taken in the first (rather than the second) year of study. This allows the student to take more advanced and focused courses in the second year, in line with his (her) future PhD research work.

www.uclouvain.be/en-510071

PROGRAM	ECTS	
CORE COURSES	60	• Advanced Economics (4 courses) • Quantitative Methods (4 courses) • 1 research seminar
ADVANCED TRAINING	20	• 3 Advanced courses among elective courses • Quantitative Methods (1 course) • 1 research seminar
ELECTIVE COURSES	35	3 courses in a list including doctoral courses
THESIS	25	

International Program

JOINT DEGREE PROGRAMS

Degree-granting exchange programs between two universities.
Those programs are designed to combine advanced professional training in economics with international mobility and integration.
These highly selective programs combine the best training courses of the partner universities and lead to a double / joint Degree.
Participating students spend one year of study abroad and the other at ESL.

Dual degree programs (research focus) with
- Bocconi
- University / Universidade Catolica Portuguesa / Warsaw
- University
