

FLIR SC660

Short description : FLIR SC660 is a high performance infrared system user for science and research applications within the long wave spectral range.

- Image resolution 640x480
- Sensitivity < 30mK
- Temperature range -40°C to 1500°C

Accessories :

- Research IR software
- Macro lens 0,5x 75mm/50µm
