

Gaussmeter 9200

Short description :

SPECIFICATIONS
RANGE (Gauss/Tesla): 2G /200 μ T to 200kG/20T

RESOLUTION (Gauss/Tesla): 1mG/.1 μ T to 100G/10mT

- Analog output: Voltage: 2.0V Full Scale Response time: 50 μ s approx (F.S. step input) Source Impedance: 100 Ω Termination: Standard BNC Connector
- Output noise: 35dB below Full Scale (rms) on 20G range 55dB below Full Scale (rms) on 200G to 20kG Range
- Frequency Range (displayed): dc Mode: dc ac Mode: 10Hz to 10kHz
- Frequency Range (Analog output): dc to 10kHz

Localisation : Welcome
