

Workshop Circuit Board Plotter LpKF protomat s62

Short description : The LpKF ProtoMat S62 introduces a new era of state-of-the-art circuit board plotters for in-house rapid PCB prototyping. This compact high-speed plotter provides unequalled precision and performance for quickly and easily milling and drilling circuit board prototypes in minutes. In-house PCB prototyping gets your designs to market faster by eliminating production delays and high costs that can occur with outside vendors. It also makes your design data secure by keeping it in-house and under your control.

Localisation : Electronic Workshop
