Gene Agilent 33120

**Short description**: The 33120A function generator has a proven legacy, 15 MHz bandwidth, arbitrary waveforms & modulation capability. DDS technology provides precise adjustment and frequency stability. 15 MHz sine & square waveforms, Ramp, triangle, noise & DC waveforms, 12-bit, 40 MSa/s, 16,000 points arbitrary waveforms, AM (int/ext), FM (int), FSK (internal/external), burst (int/ext). Linear & logarithmic sweeps and burst operation. IntuiLink software plus GPIB & RS-232 interfaces included. Option 001 provides improved stability & a multiple-unit link.
