

Scope DSOX91604A

Short description : AGILENT DSOX91604A

The world's fastest real-time oscilloscope

- * 16 GHz true analog bandwidth, upgradeable to industry's best: 32 GHz
- * 80 GSa/s sample rate 2 channels / 40 GSa/s sample rate 4 channels
- * Industry deepest memory with up to 2 Gpts memory. Currently : 50 Mpts per channel
- * The highest real-time scope measurement accuracy
- * Industry's highest true analog bandwidth (twice the analog bandwidth of leading competitor)
- * Industry's lowest oscilloscope noise floor (2.31 mVrms at 32 GHz at 50mV/div)
- * Lowest jitter measurement floor (<150 fS)

Options : 010/050/800+ Jitter

Localisation : Welcome
